

Adapting Greenway Planning Strategy

Adapting Greenway Planning Strategy

An adaptive plan is ongoing. It can be created and modified as needed to continually assess opportunities, prioritize resources, and evaluate risk while promoting accountability at all levels of the organization. The result is a flexible strategic plan that can be adopted throughout the firm. Greenway Strategy Planning services include:

(PDF) Greenways as a Planning Strategy - ResearchGate

The environment has become an important issue in planning agendas as a consequence of the industrial era. Planners have begun to use scientific findings and strategies in solving problems. Among these strategies, the greenway planning strategy is promoted by landscape-ecological planning proponents and employed by planners because of its multifunctional features.

An inquiry of adaptation of greenway planning strategy to ...

Greenway planning strategy needs to be part of a larger and more comprehensive landscape/physical planning activity. The popularity of greenways raises the concern that many may view it as the only landscape planning action needed. Under certain circumstances the popularity of the greenway idea may obscure or diminish other legitimate landscape ...

Greenways as a planning strategy - ScienceDirect

This suggests that the Greenway Strategy is contrary to EU law on environmental protection and for many locations planning applications framed on the basis of the Greenway Strategy will be inherently unlawful under EU directives on the environment and hence unlawful under the Irish planning regulations.
