### **Advances In Nature Of Science**

ONLINE COVER In an editorial for Science Advances, Dr. Thomas Lovejoy heralds a feat of data gathering and analysis: the first official report of the International Platform on Biodiversity and Ecosystem Services (IPBES). This comprehensive assessment of the world's ecosystems is bleak. Once healthy biological communities that provided critical services to humans are greatly threatened.

We performed the first measurements of hydrogen isotopic composition and water content in nominally anhydrous minerals collected by the Hayabusa mission from the S-type asteroid Itokawa. The hydrogen isotopic composition ( $\delta D$ ) of the measured pyroxene grains is  $-79$  to  $-53\%$ , which is indistinguishable from that in chondritic meteorites, achondrites, and terrestrial rocks.

What is science? Science is the concerted human effort to understand, or to understand better, the history of the natural world and how the natural world works, with observable physical evidence as the basis of that understanding 1.It is done through observation of natural phenomena, and/or through experimentation that tries to simulate natural processes under controlled conditions.

Advances in Difference Equations is a peer-reviewed open access journal published under the brand SpringerOpen. The theory of difference equations, the methods used, and their wide applications have advanced beyond their adolescent stage to occupy a central position in applicable analysis. In fact, in the last 12 years, the proliferation of the subject has been witnessed by hundreds of ...

Misleading stereotypes of scientists. MISCONCEPTION: Science is a solitary pursuit. CORRECTION: When scientists are portrayed in movies and television shows, they are often ensconced in silent laboratories, alone with their bubbling test-tubes.This can make science seem isolating. In fact, many scientists work in busy labs or field stations, surrounded by other scientists and students.

Nature Precedings was launched in 2007 as NPG's preprint server for the Life Science community. Since 2007, technological advances and the needs of the research community have evolved to the extent that the Nature Precedings site is unsustainable as it was originally conceived. As a result, Nature Precedings ceased accepting new submissions as of April 3 rd, 2012.
