Sweet potatoes are not just one of the healthiest and cheapest sources of nutrition; the predominant protein is a type of protease inhibitor that may have cancer-fighting properties.

Anticancer Potential of Sweet Potato Proteins ...
Introduction. Resurrection species are a unique group of land plants that can tolerate desiccation of their vegetative tissues to air-dried state (to just 5% relative water content, RWC) and resume normal physiological and metabolic activities after rehydration (Dinakar and Bartels, 2013, Gechev et al., 2012). Resurrection species are more common in bryophytes, relatively rare in pteridophytes...

Chemotherapy (often abbreviated to chemo and sometimes CTX or CTx) is a type of cancer treatment that uses one or more anti-cancer drugs (chemotherapeutic agents) as part of a standardized chemotherapy regimen. Chemotherapy may be given with a curative intent (which almost always involves combinations of drugs), or it may aim to prolong life or to reduce symptoms (palliative chemotherapy).

Chemotherapy - Wikipedia
Medicinal plants, also called medicinal herbs, have been discovered and used in traditional
medicine practices since prehistoric times. Plants synthesise hundreds of chemical compounds for functions including defence against insects, fungi, diseases, and herbivorous mammals. Numerous phytochemicals with potential or established biological activity have been identified.
