In international relations, regionalism is the expression of a common sense of identity and purpose combined with the creation and implementation of institutions that express a particular identity and shape collective action within a geographical region. Regionalism is one of the three constituents of the international commercial system (along with multilateralism and unilateralism).

This introductory article first sets out the book's main purpose, which is to display the importance of diplomacy along with its attendant capacity for adaptation. It then discusses the nature and meaning of diplomacy, its emerging patterns of practice, and its relevance for not only policy-makers but also a wider cast of actors and set of social interaction.
