Inductive Dependency Parsing

Contents Awards Printed Proceedings Online Proceedings Cross-conference papers Awards In honor of its 25th anniversary, the Machine Learning Journal is sponsoring the awards for the student authors of the best and distinguished papers.

ICML 2011, The 28th International Conference on Machine ...

Accepted Papers On this page. Main Conference; Industry Track; System Demonstrations; Main Conference "President Vows to Cut <Taxes> Hair": Dataset and Analysis of Creative Text Editing for Humorous Headlines

Accepted Papers - NAACL-HLT 2019

natural language processing ACL 2018 Highlights: Understanding Representations and Evaluation in More Challenging Settings. This post discusses highlights of the 56th Annual Meeting of the Association for Computational Linguistics (ACL 2018).

A Review of the Neural History of Natural Language Processing

Direction 1: More inductive biases (but cleverly) It is an ongoing discussion whether inductive biases—the set of assumptions used to learn a mapping function from input to output—should be reduced or increased.. For instance, just last year there was a noteworthy debate between Yann LeCun and Christopher Manning on what innate priors we should build into deep learning architectures.

NLP's generalization problem, and how researchers are ...

Syllabus CSE Department, IIT Kharagpur. Suggested assignments to be conducted on a 3-hour slot. It will be conducted in tandem with the theory course so the topics for problems given in the lab are already initiated in the theory class.

Syllabus - Indian Institute of Technology Kharagpur

This blog post gives an overview of multi-task learning in deep neural networks. It discusses existing approaches as well as recent advances.

An Overview of Multi-Task Learning for Deep Learning

In linguistics, construction grammar groups a number of models of grammar that all subscribe to the idea that knowledge of a language is based on a collection of "form and function pairings". The "function" side covers what is commonly understood as meaning, content, or intent; it usually extends over both conventional fields of semantics and pragmatics.

Construction grammar - Wikipedia

Language understanding is a challenge for computers. Subtle nuances of communication that human toddlers can understand still confuse the most powerful machines. Even though advanced techniques like deep learning can detect and replicate complex language patterns, machine learning models still lack fundamental conceptual understanding of what our words really mean.

14 NLP Research Breakthroughs You Can Apply To Your Business

Oral Robust Multi-Resolution Pedestrian Detection in Traffic Scenes Junjie Yan, Xucong Zhang, Zhen Lei, Dong Yi, Shengcai Liao, Stan Li Megastereo: Constructing High-Resolution Stereo Panoramas (project, project) Christian Richardt, Yael Pritch, Henning Zimmer, Alexander Sorkine-Hornung Understanding Indoor Scenes using 3D Geometric Phrases (project, dataset)
