The following examples are from the Publication Manual of the American Psychological Association 6th ed. or derived from resources in the Camosun College Library. Please see the manual for further instructions and examples. Sometimes there are no specific examples available in the APA Publication Manual for the resource you are using (e.g. course packs), so we have provided our best
Research guides: APA Citation Style (6th edition): Examples
1. Introduction. Primate electrophysiologists use a range of implantable devices to access and record from brain regions of interest. For electrode recordings in awake animals, the subjects are often implanted with recording chambers, which protect the brain from the external environment in between experiments (Evarts, 1966, Gardiner and Toth, 1999, Adams et al., 2011).

3D printing and modelling of customized implants and ...
