Gender identity is the personal sense of one's own gender. Gender identity can correlate with assigned sex at birth or can differ from it. All societies have a set of gender categories that can serve as the basis of the formation of a person's social identity in relation to other members of society.. In most societies, there is a basic division between gender attributes assigned to males and ...

Phenomenology and Time-Consciousness. Edmund Husserl, founder of the phenomenological movement, employs the term "phenomenology" in its etymological sense as the activity of giving an account (logos) of the way things appear (phainomenon).Hence, a phenomenology of time attempts to account for the way things appear to us as temporal or how we experience time.
