Political Economy And Industrialism Banks

Capitalism is an economic system based on the private ownership of the means of production and their operation for profit. Characteristics central to capitalism include private property, capital accumulation, wage labor, voluntary exchange, a price system, and competitive markets. In a capitalist market economy, decision-making and investment are determined by every owner of wealth, property ...

The expansion of our wealth is only possible so long as the oil supply continues to expand, says oil expert Dr. Colin Campbell. The financial and investment community is beginning to accept the reality of Peak Oil, which ends the First Half of the Age of Oil, during which banks created capital by lending more than they had on deposit, being confident that tomorrow's expansion, fueled by cheap ...

State legislatures meanwhile pumped capital into the economy by chartering banks. The number of state-chartered banks skyrocketed from 1 in 1783, 266 in 1820, and 702 in 1840 to 1,371 in 1860. 5 European capital also helped build American infrastructure. By 1844, one British traveler declared that "the prosperity of America, her railroads, canals, steam navigation, and banks, are the fruit ...
