Evidence-based education is an approach to all aspects of education—from policy-making to classroom practice—where that is based on randomized trials, as with the testing of new drugs in evidence-based medicine. When several of these studies are compared, and their conclusions combined, we get a meta-study or meta-analysis. This is significantly more reliable than the results of individual ...

### **Evidence-based education - Wikipedia**

Evidence-based design, or EBD, is defined as the process of basing decisions about the built environment on credible research to achieve the best possible outcomes. A formal definition would be "Evidence-based design is a process for the conscientious, explicit, and judicious use of current best evidence from research and practice in making critical decisions, together with an informed client ...
