Regional Identity And Economic Change

Regional Integration is a process in which neighboring states enter into an agreement in order to upgrade cooperation through common institutions and rules. The objectives of the agreement could range from economic to political to environmental, although it has typically taken the form of a political economy initiative where commercial interests are the focus for achieving broader socio ...

CIA Economic Analyst assess foreign economic, trade, and financial interests that affect US security interests. Economists working in regional offices focus on a range of macroeconomic and microeconomic issues facing the country or region they cover, while economists working transnational issues take a broader, global approach to such matters and tend to delve more deeply into technical details.
