### **Stress, appraisal, and coping (eBook, 1984) [WorldCat.org]**

Stress and coping theory provides a framework that is useful for formulating and testing hypotheses about the stress process and its relation to physical and mental health. The framework emphasizes the importance of two processes, appraisal and coping, as mediators of the ongoing relationship between the person and the environment.

### **Stress, Appraisal, and Coping by Lazarus, Richard S., PhD ...**

Stress appraisal theory is concerned with individuals' evaluation of the event, rather than with the event per se. People differ in how they construe what is happening to them and their options for coping. Stress appraisal comes in two forms, primary and secondary appraisal, which should be considered as two stages of appraisal or evaluation.
