### **The Philosophy Of Mind An**

Philosophy of mind is a branch of philosophy that studies the ontology, nature, and relationship of the mind to the body. The mind-body problem is a paradigm issue in philosophy of mind, although other issues are addressed, such as the hard problem of consciousness, and the nature of particular mental states. Aspects of the mind that are studied include mental events, mental functions ...

Functionalism is a viewpoint of the theory of the mind (not to be confused with the psychological notion of one's Theory of Mind). It states that mental states (beliefs, desires, being in pain, etc.) are constituted solely by their functional role in, i.e. causal relations with, other mental states, sensory inputs and behavioral outputs. Functionalism developed largely as an alternative to the ...

Philosophy is inescapable. Your philosophy is your worldview, which is a backdrop for all thought and a context for all knowledge. The decision about examining philosophy is between: 1) to make your philosophy explicit, or 2) to be a slave to the subconscious notions, principles, and other people's philosophies picked up throughout life.
